HANDMADE POCOCK CEDAR SHELL: GIVE THE GIFT OF HISTORY AND TRADITION

LEGENDARY HAND-BUILT POCOCK "CEDAR SPEEDER" SINGLE World-renowned for nearly a century as the finest racing shell ever made—a masterpiece of art and function. Now painstakingly re-created using the same materials, techniques and molds that George Pocock pioneered in his Seattle shop in the early 20th century. Crafted from a special stock of Pocock's original old-growth cedar held in storage for decades. Built in collaboration with the Northwest Maritime Center & Wooden Boat Foundation, the Point Hudson Boat Shop, LLC, and Pocock Racing Shells, Inc. to support maritime and environmental education.
